Refrigerated Loose Cargo Cost Comparison with Island Product Discount

On August 17, the Public Utilities Commission approved a temporary, across-the-board rate increase of approximately 46%, which is now in effect.

- Starting September 1, 2020, the new temporary rates apply to all freight rates and freight-related rules on all cargo sailings.
- The PUC’s order also reinstates the full “pre-COVID” sailing schedule to all ports, which restores a second sailing to the port of Hilo and a third sailing to Kahului, effective September 1st.
- The rate increase follows Young Brothers’ emergency request to the PUC for temporary rate relief totaling approximately $27 million.

As an example, the following chart outlines the change in prices to ship refrigerated loose boxes of locally grown agricultural product that qualify for Young Brothers’ 30% Island Agricultural Discount. The shipping cost below reflects this discount, and the change in price below is rounded for ease in review.
